

# Lima Group Meeting Minutes

**Date** 23/10/24

**Notetaker** Caitlin, Holly, Andreas

## Attendees

Holly

Fariha

Haziel

Piotr

Caitlin

Rebekah

Andreas

Dermot

## Discussion

---

**Topic** LACR images

### Notes

- ❖ Owned by aberdeen city archives
- ❖ University has permission to use those as part of the search platform
- ❖ Client has them available to share, will send them over to us soon
- ❖ Client doesn't know if lack of image sources is due to copyright

### Action List

#### Action Item

- ✓ Send LACR images

#### Person responsible

jackson

#### Deadline

asap

---

**Topic** Questions about brief document

### Notes

- ❖ Our contribution is to make a prototype for the next step of SAR, could be built on by future group and the university
- ❖ Doesn't need to be entirely complete, run it locally. We could make a beta if we like
- ❖ Who would use it? : For people interested in scots and latin words, historical questions, legal questions
- ❖

### Action List

#### Action Item

- ✓

#### Person responsible

#### Deadline

---

**Topic** Examples of using the search tool

**Notes**

- ❖ A LOT of possibilities
- ❖ Examples
  - interesting in how accounting records were made and kept (for work reasons)
  - Looking for specific words
  - Primary level of interest: Going in for linguistic, historical, or legal questions. Bringing a reasonable amount of knowledge with them and looking for ways to find information about keywords in the material
  - Second level of interest: interest in place names, personal names. Will be satisfied with just seeing the text
    - Ex. i live in old aberdeen- want to explore more
    - Past variations of names
- ❖

**Action List**

Action Item	Person responsible	Deadline
✓		

---

**Topic** Progress on prototype

**Notes**

- ❖ Doesn't have to be publicly available by the end

**Action List**

Action Item	Person responsible	Deadline
✓		

---

**Topic** Annotations in entries

**Notes**

- ❖ What do red lines mean through text?
  - We should pay attention to the xml tags. It is a little untidy but not our problem. For example there are tags for dates.
- ❖ Xml is read by website and produces the red lines? Display elements are positive according to client.
