Discussion

Topic Sprint 4

Notes
- ❖ We updated the progress of last week's task
  - ➢ 2 were completed: uploading laravel and making a start on the report
  - ➢ Don't have the pictures yet but we will be sent them soon when the client is back on campus so nothing more needs done with regards to this.
- ❖ We will continue the uncompleted tasks in this sprint
  - ➢ Everyone should start thinking about report writing, but other than that there are no additional tasks since we have a very busy week with tests
  - ➢ So:
    - ■ Work on the prototype
    - ■ Begin test cases as this was not done
    - ■ Security research was done, so research accessibility this week
    - ■ Finish transfer of documents
    - ■ It should be known amongst the group how to display xml on the php web pages
    - ■ Finish the rudimentary search and classes
    - ■ Up to 500 words on the report each, look at what work has been done so far for guidance
